Range Safety Rules

- **Due to insurance requirements, no alcohol is allowed at the range.** Violation will result in immediate termination of membership.
- No center fire rifles are permitted on the pistol range. This includes calibers such as 5.56/223 and 7.62x39.
- Armor piercing ammunition is strictly prohibited on steel targets. No exceptions.
- Always be aware of others using the range. Ensure no one is down range placing targets, and check that no one is in the adjacent creek.
- Maintain a minimum distance of 10 yards from steel targets and wear eye protection at all times.
- You may bring your own targets, but you are responsible for cleaning up after yourself.
- During cease fires, open the action, remove magazines, and bench all weapons.
- Keep all weapons always pointed in a safe direction.
- Please return all target stands to the covered area after use.
- If anything is broken, notify the range operator, even if you caused the damage.
- Please take your trash home with you. Do not put leftover food in the burn pit; instead, throw food scraps into the woods for the animals.
- Help keep the range clean. Treat the facility as if it were your own.
